## OBJECTIVE

---

Web Developer and Computer Science student specializing in modern frontend technologies with a growing command of backend development using the MERN stack. Eager to join a dynamic startup or tech agency to contribute to impactful web solutions.

## EDUCATION

---

**Bachelor of Computer Science**, University of Haripur

2021 – 2025

## SKILLS

---

<b>Technical Skills</b>	MERN Stack, React, Tailwind CSS, JavaScript, HTML, CSS, WordPress, MS Office
<b>Soft Skills</b>	Problem Solving, Communication, Adaptability, Self Learning

## PROJECTS

---

### **ConnectP – Full-Stack MERN Social & Communication Platform** (In Development)

Real-time social app with chat and video calls built using MERN stack.

- Integrated `stream-chat` and `@stream-io/video-react-sdk` for real-time messaging and video features.
- Secured user authentication with JWT, `bcrypt.js`, `cookie-parser`; added profiles, notifications, and friend requests.
- Developed frontend using React.js, Vite, Tailwind CSS, DaisyUI, Zustand; backend with Express.js and MongoDB.

### **Pace AI – AI-Powered Adaptive Learning Platform** ([Try it here](#))

Personalized learning tool using React and Gemini API.

- Built dynamic content generation and explanation engine with adaptive learning modes.
- Integrated AI-generated MCQs and assessments; robust API handling with React.
- Focused on interactive UX, advanced state management, and scalable frontend architecture.

## EXTRA-CURRICULAR ACTIVITIES

---

- Actively engage in continuous learning by exploring new web development technologies, frameworks, and best practices through online courses, documentation, and tutorials.
- Regularly practice coding to sharpen development skills and stay up-to-date with industry trends.

## LANGUAGES

---

- English – Professional proficiency
- Urdu – Native proficiency
